### Registration Tips:

Review these helpful tips to prepare for a successful summer program registration

- Create an online account IN ADVANCE of registration so you're ready to go when registration begins at 5am
- Add your credit card information to the Financial Information section of your account to allow for a quicker checkout process
- When completing registration, please do not refresh the page while your payment is being processed. This could result in losing your position for the course as multiple clients trying to complete their registrations simultaneously
- **Note: calling the DRC to register does not ensure you will get enrolled before a customer who is enrolling online or an in-house registration**
